

## Pay

# Citea – The parking machine for all payment options.

Thanks to its modular design and flexible system components the Citea allows for flexible configuration according to your needs and requirements. In the management of gated parking spaces the Citea can put its advantages as a pay station to full use.

You can always rely on excellent quality and reliability. Not the least due to its sturdy aluminium housing the Citea has proven itself thousands of times - cities and municipalities worldwide count on the flexible system.

### Citea as a Universal Pay Station

Citea can be adapted as a universal pay station and utilized wherever (entrance) fees are charged.

## Your Benefits

- ✓ Visual elegance and robustness
- ✓ Easy and intuitive operation
- ✓ Highly suitable for individualization (function and design)
- ✓ Structured interior
- ✓ Remote maintenance at any time and from any place via cloud
- ✓ Comprehensive after-sales service: Support hotline, employee training and repair centre

### Typical Applications

- ✓ Managed parking areas on- and off-street
- ✓ Payment terminals for third-party systems (e.g. visitor's tax, admissions or discounts)

## Technical Data

<b>Dimensions</b>	H 1675 x W 420 x D 325 mm
<b>Weight</b>	Approx. 80 kg, depending on configuration
<b>Temperature range</b>	Operating temperature -20 °C to + 55 °C Storage and transport temperature -40 °C to +70 °C
<b>Protection class</b>	IP54 & IK10
<b>Power consumption</b>	Solar operation: Solar + rechargeable battery 12 V/65 Ah Mains operation: 110 V/230 V AC (-15 %/+10 %) + rechargeable battery 12 V/7 Ah
<b>Relative humidity</b>	Up to 100 % (condensation allowed)
<b>Display/Indication</b>	TFT-touch-display
<b>Certificates</b>	CE certified according to EN 12414 VDE Class P2, P3 and P4 certificate
<b>Recycling rate</b>	97 %

## Variations

- **With solar supply**  
Standard version: 16 Wp internal  
For higher loads, critical locations: 40 Wp (internal or external)
- **Individual design**  
Housing colour freely selectable, optionally with advertising imprint and with antigrffiti coating

## Options & Packages

- **Various payment options**
- **11.2 inch TFT touch screen**
- **4G modem or LAN connection** for data transfer
- **Digital ticket** via QR code or e-mail
- **QR code reader** for reading QR or barcodes

## Combine with

### Central administration via backend software:

Master data and parameter administration, voucher & limit administration and product restrictions in real time, installation in your network or as a SaaS solution

### Third-party interface:

Flexible data exchange between different third-party providers

### Live monitoring via app:

Monitor status messages in real time and take immediate measures in an emergency
