

Pay

HecPay – 24/7 Barrier-Free Charging

With the HecPay in its slim wall-mounted housing, you can conveniently activate your charging points and enable your customers to enjoy a seamless payment process via credit/debit card, charging card, or mobile payment.

Typical Applications

- ✓ Public parking spaces
- ✓ Customer parking
- ✓ Charging parks (in urban areas or on traffic axes)

With high flexibility and functionality it allows you as the operator of charging points or charging parks the easy upgrading of your existing or the setup of a future-proof charging infrastructure. Via remote access, status messages can be issued and important key figures can be retrieved. This means you always have your charging infrastructure under control.

Reliable face of your charging infrastructure

HecPay enables a barrier-free payment process in accordance with the EU AFIR regulation that came into force in 2024, without the need to install, operate, and maintain a separate payment terminal at each individual charging station.

Your Benefits

- ✓ Optimization of costs through central payment terminal
- ✓ Easy wall-mounted installation
- ✓ Ideal for locations without floor mounting options – such as parking garages and underground car parks
- ✓ Barrier-free payment process in accordance with the EU AFIR regulation
- ✓ Multiple charging points can be activated via a single terminal
- ✓ Modern and user-friendly payment and authorization process
- ✓ High security standards

Technical Data

Dimensions	H 460 x B 221 x T 159 mm
Weight	Ca. 11 kg
Temperature range	-20 °C to +55 °C
Protection class	IP54 & IK10
Power consumption	Main operation: 110 V AC/60 Hz and 230 V AC/50 Hz (+10/-15 %)
Relative humidity	Up to 100 %
Display/Indication	TFT touch display

Options & Packages

- **Various payment options**
- **RFID card authentication**
- 11,2 inch **TFT touch screen**
- **Paperless terminal**
- **4G modem or LAN connection** for data transfer
- **Digital ticket** via QR code or email

Combine with
