HecVision Wash

With the HecVision Wash, you can operate your gantry washes or wash bays unmanned around the clock and integrate washing into your filling station infrastructure, for example.

Gantry car washes and wash bays are often part of a filling station infrastructure, but even without a filling station, the HecVision Wash enables you as an operator of such facilities to enter the car wash business in an innovative way.

Reliable face of your carwash

You can rely on the HecVision Wash: offer your clients a foolproof authorization process with the wash user interface, which also draws their attention to individual security instructions. This creates an error-free payment and authorization process for your clients.

Your Benefits

- ✓ Easy and quick payment
- ✓ Reading of vouchers, washing tickets etc. by 2D scanner
- ✓ Modern and user-friendly wash-user interface
- ✓ Connection even to different manufacturers of gantry car washes and wash bays
